M460

WALK-BEHIND SCRUBBER-DRYER

Precise cleaning in confined spaces

The only 18 in walk-behind scrubber-dryer that can clean and dry in the angles which are inaccessible to traditional scrubber-dryers. The M460's compact design and maneuverability allow it to access hard to reach areas and to obtain perfect cleaning results around objects and obstacles.

The M460's 18 in cleaning path, and 2.2 mph operating speed guarantee an hourly productivity rate of 1,733 ft²/h.

It is impossible to clean a floor properly without sufficient water. The M460's tanks have an impressive capacity, the 8 gal solution tank and 8 gal recovery tank, provide the water flow necessary to obtain real results. These large tanks are a unique feature, making it possible to clean for longer without interrupting the job in hand to empty and refill the tanks.

There are 2 versions available:

- AGM: 2 x 12 V batteries, providing maximum freedom to move around the space being cleaned
- CABLE: with a power cord, for unlimited running time

SOLUTION FLOW

It is impossible to properly clean a floor without sufficient water. The M460 has a 8 gal capacity solution tank, which makes it possible to deliver the perfect volume of water to obtain exceptional results.

DRYING AND WATER PICK-UP

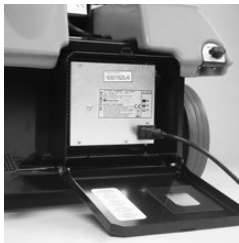

The innovative water pickup system, guarantees optimum dirt removal and perfect drying. Leaving behind a clean and dry floor which is immediately ready for traffic.

TOOL FREE BRUSH CHANGE

Choose the brush or abrasive pad best suited to your floors. We offer a wide range of solutions, which can be easily changed without the need for tools.

ONBOARD BATTERY CHARGER

Two 12V batteries provide 2 hours and 10 minutes of continuous uptime with every charge cycle. The onboard battery charger is protected in a steel case and is easy to access.

FEATURES

- Brush drive
- Battery included
- Onboard battery charger
- Automatic brush coupling system
- Battery charge level indicator
- PPL Brush
- The M460 has a 18 in cleaning path, and a 2.2 mph operating speed, which guarantee an hourly productivity rate of 1733 ft²/h.
- 8 gal solution tank and 8 gal recovery tank
- The machine is available in battery version, with two 12V batteries which guarantee an impressive uptime of 2 hours and 10 minutes, and in cable version, providing unlimited uptime
- Also available in Chromeversion, with a stainless-steel frame

TOTAL COMFORT

The M460 has an ergonomic handle, which can be adjusted to the height of the operator for maximum comfort during use.

SAFETY

For added safety the M460 has a starter key. The brush motor and electric circuit are protected by a resettable fuse, which interrupts the power supply should an anomaly occur.

CHROME

For greater resistance in corrosive environments and enhanced durability, in the M460 Chromeversion the frame and select metal components are made of stainless steel.

CHROME

INTELLIGENT DESIGN

The recovery tank, with integrated handle, is easy to remove and comfortable to transport. The water/air vacuum tubes are protected inside the frame and are connected to the tank via a locking mechanism and silicon gaskets.

M - MECHANICAL

Created following the "Electronic-Free" philosophy, the functions of an M line machine are mechanically activated. This ensures the unit is simple to use and easy to maintain, suitable even for inexperienced operators.

VERSIONS

M460 AGM /LI-ION (Two 12V batteries, 2 hours and 10 minutes of uptime)

M460 CABLE (with a power cord, unlimited uptime)

APPLICATIONS

Restaurants, kitchens, bars, gyms, swimming pools, changing rooms, hospitals, small manufacturing facilities, supermarkets, offices, shops and other small to medium sized surfaces.

SURFACES

Ceramic, marble, cement, linoleum, porcelain tiles, rubber.
